■ "Mega Monster Battle: Ultra Galaxy Legend:" Plot

The countdown to the destruction of the "Land of Light" in Nebula M78, the home of all Ultramen, begins!

There is a state of emergency on the "Land of Light in Nebula M78", which is far from earth!

A great evil that had been locked away in a space prison by the Ultraman King for tens of thousands of years has escaped!

This great evil is named "Ultraman Belial". In the distant past he had been a member of the Ultra family, but he was seduced by dark forces and incited a rebellion, thus becoming a universe destroyer. Ultraman Belial wreaks havoc using the "Giga-Battlenizer", which has the ability to control 100 monsters, as a weapon.

Ultra warriors fall, one after another. The "Land of Light" becomes enshrouded in darkness and the entire universe is in danger! Covered head-to-toe in wounds, Ultraman Mebius, along with "monster-tamer" Rei, who is accompanied by the monster Gomora, staggers to his feet to recapture the Land of Light.

Can they possibly bring down Ultraman Belial, their strongest and most evil enemy?
